8. Pharmacologic Approaches to Glycemic Treatment ... A patient-centered approach should be used to guide the choice of pharmacologic agents. Considerations include efficacy, hypoglycemia risk, history of atherosclerotic cardiovascular disease, impact on weight, potential side effects, renal effects, delivery method (oral versus subcutaneous), cost, and patient preferences. Non-Pharmacological Approaches to Migraine Management ... Issues like conflicting medications, previous adverse reactions and conflicting medical conditions can often prevent people from using prescription migraine medications. When circumstances like these arise, many turn to non-pharmacological approaches to migraine management. Pharmacological approaches to the treatment of complicated ... Complicated grief (CG) is a common and often under-acknowledged cause of profound impairment experienced after the loss of a loved one. Although both clinical and basic research suggests that pharmacological agents might be of use in the treatment of CG, research on pharmacological approaches to this condition is still scarce.
